

Veeam Backup for Microsoft 365

Microsoft 365: Your Data. Your Responsibility

Veeam® Backup for Microsoft 365, the leader in Microsoft 365 backup, eliminates the risk of losing your Microsoft 365 data, including Microsoft Exchange Online, SharePoint Online, OneDrive for Business and Microsoft Teams — so that your data is always protected and accessible. With *Veeam Backup for Microsoft 365*, you can backup Microsoft 365 data to any location — on-premises or in cloud object storage — including Amazon S3, Azure Blob, IBM Cloud or S3 compatible providers.

- Protect Microsoft 365 data from accidental deletion and security threats
- Quickly restore Microsoft 365 data with industry-leading flexibility
- Meet compliance requirements with fast search-and-find capabilities

Microsoft 365 Cyberattacks and Data Loss are Common

75% of enterprises will prioritize backup of SaaS apps as a critical requirement by 2028

23% cited better protection of SaaS as something they would change

10^x faster recovery times are achieved with Veeam

Key capabilities

50 Office 365 Recovery Options

Whether it's granular recovery of individual items or bulk recovery of multiple users at once, meet ANY recovery need in just three clicks.

Bring Your Own Storage

Connect any storage, whether on-premises or cloud object, including Amazon S3, Azure blob, IBM Cloud, or S3 compatible storage.

Infrastructure Freedom

Get the flexibility to change your backup storage at any time, avoiding penalties and vendor lock-in.

Comprehensive Immutability

Leverage immutable backups with immutable backup copies, ensuring your backup data is physically unreachable and completely unalterable.

True Enterprise Scale

Enterprises can efficiently scale up large environments with tens of thousands of users utilizing architecture designed to handle any backup.

Lowest RPO for Office 365 Data

Achieve the lowest recovery point objectives (RPOs) in the industry (<5 minutes) and also create different RPOs for different objects.

Built-In Security Features

Leverage backup immutability, multi-factor authentication, and encryption for Office 365 data that's at-rest in object storage.

Advanced Monitoring and Reporting

Monitor Office 365 backup and storage resources, receive alerts to address issues, and leverage reports so you can meet your RPOs.

Hybrid Support for Office 365 Backups

Streamline data protection with support for your hybrid Office 365 and on-premises Exchange and SharePoint environments.
